

Jigsaw knowledge and skills progression: Dreams & Goals Ages 3-11(12)

Jigsaw, the mindful approach to PSHE is a progressive and spiral scheme of learning. In planning the lessons, Jigsaw PSHE ensures that learning from previous years is revisited and extended, adding new concepts, knowledge and skills, year on year as appropriate. The table below draws out the spiral knowledge and skills progression within the Dreams & Goals Puzzle (unit of work) including some of the new key vocabulary used in each year group and suggestions for Family Learning. Please ask your child's school for details of any adaptations they have made to the programme in line with their school policy as some of the content and vocabulary may have been changed or be taught in a different year group.

In this Puzzle the children talk about challenges and facing up to them. They discuss not giving up and trying until they have achieved their goal. The children are encouraged to think about jobs that they might like to have when they are older and are taught to associate what they learn now with being able to have the job they want. They also talk about achieving goals and the feelings linked to this.			<p>New key vocabulary that may be introduced: Dream, goal, challenge, job, persevere, achievement, happy, kind, encourage, proud.</p>
